Dashcam AV1 Transcoding Preset 2

Dashcam AV1 Transcoding Preset

Dashcam records at very high bitrate. Lower disk usage in exchange for much lower quality. As low as you can go while still making out enough license plates.

```
 nice -19 parallel --ungroup -j4 -v -q ffmpeg -i "{}" -c:v libsvtav1 -crf 43 -preset 2 -threads 8 -svtav1-params mbr=700k:aq-mode=2:enable-variance-boost=1:enable-qm=1:qm-min=0:qm-max=15:film-grain=10:keyint=30s:sharpness=3 -g 300 -map 0 -y "{.}.mkv" ::: **.mp4
```

NOTE: if on Tesla's, extract SEI metadata first before converting!
